

CURRICULUM VITAE

With my work, I want to combine my creativity and logical mind to create exciting and innovative projects within web and software development. I am excited to be part of this ever-growing industry, focusing my skills and abilities on the Front-End but keeping an open mind to a wide variety of techniques and new technologies. I have recently graduated from a coding Traineeship as a full stack developer including completing 2 real-world projects successfully to specification using a wide range of programming languages. I'm trustworthy and a hard worker with a great work ethic while being committed and organised and able to work in a team. I'm interested in projects that will emphasize my qualities and push my abilities out of my comfort zone.

PERSONAL DETAILS

NAME: Pier Mario Capra

RESIDES: Edinburgh/Glasgow

DRIVING LICENCE: Full UK driving licence

LANGUAGES: English and Italian (fluent), Spanish (good)

CONTACT DETAILS: (M) 07503 680041

CODING TRAINEESHIP

IT Career Switch Ltd

Coding Traineeship – Full stack developer
1-year program

During the traineeship I had to demonstrate a very competent level of the following programming languages and technical skills

- HTML5, CSS3, JavaScript
- PHP, SQL, React, jQuery
- Java, Python, C#
- Command line Git, Github
- Remote API access

I have recently passed my **Microsoft 98-383: Introduction to Programming Using HTML and CSS**. More information on this certification can be found at: <https://docs.microsoft.com/en-us/learn/certifications/exams/98-383>

ADDITIONAL EXPERIENCE:

- MySQL, Node.js, Bootstrap, SASS, Angular, Java Spring Boot

DEVELOPMENT EXPERIENCE:

Below are the two briefs of development projects I successfully completed with IT Career Switch which can be found in my bio: <https://www.pierocapra.com/>

Portfolio Project #1: "Gazetter"

The specification was to reply to a website specification for a map-based app to provide information on countries – with a focus on a "mobile first" development. Preferably using a framework, to then develop HTML, CSS and JavaScript with JQuery modules that use PHP server-based components to source data from third party APIs (Geonames, OpenWeather). The solution is assessed on its delivery to specification, functionality, and usability.

Portfolio Project #2: "Company Directory"

A more rigorous reply to this specification was required as a user requirements document was needed to be prepared which, when signed off, triggers the release of SQL allowing to develop a "mobile-first" application to maintain a company personnel database (MySQL). Sign off is only achieved upon the student supplying an independently witnessed document providing confirmation of the system's ability to perform error free.

Personal Project #1: "SoloFood"

SoloFood is a demo website for a fictional Food Delivery Service. It is mainly a Front-End project with a modern and appealing design.

Personal Project #2: "TravelHouse"

TravelHouse is a demo website for a fictional Travel Agency. It is purely a Front-End project with extensive and creative use of SASS.

CAREER HISTORY:

2021 – Present
POSITION HELD:

Freelance
Web Developer

- Design and development of websites

Mar 2017 – Nov 2021
POSITION HELD:

TUI-TED (The Entertainment Department)
Head Technician
